#### Clinic's New Guidelines!!!!!!!!!!!!!!!!!!!!!!,

1. All patients must come to the clinic, if they wish to be examined, no diagnoses will be given over the phone or with mailed in reports.
2. Patients who come here will not receive their official results for at least 30 days. This includes any letters for the VA.
3. We have been asked to let everyone know that this is a private practice, not a free clinic, you must make financial arrangements before coming. We cannot stress this point enough. This clinic is not attached to the VA. It is private and requires payment, like any other doctor's office visit.

Alert Update !!!!!!!!!!

4. Patients wishing to be screened for Agent Orange exposure, need to be aware of this. Those who served, other than in country, has no guarantee from the clinic or Dr. Bartel, that your claim will go through. Fact is, that the VA doesn't recognize these areas, of herbicide usage, at this time.

5. Agent Orange primarily causes neurological problems and this clinic treats neurological conditions, if the patient wants to be diagnosed for other problems, they need to go to a doctor who treats those conditions. The primary conditions caused from Agent Orange are Neuropathy, Dementia, and Diabetes type II, yes there are other conditions, this are the primary ones.
