THE INVISIBLE ARMY

Oklahoma City USA Release -- Put it out among your contacts- We are looking for anyone who was in Korea, served in a unit that had no insignia's on their uniforms, carried no ID cards nor did they wear dog tags. This unit may have been known as Ghost Walkers or simply Hq. Hq. Seoul. Some are surely Koreans who served alongside Americans.

These squads were quick response units brought in to stem the tide of NK's coming down causing problems. They may have been stationed out of ASCOM City and sent to various camps in the DMZ area or between the 38th and Seoul. They were the brain child of the CIA and Army Intelligence. Imagine that.

Survivors cannot get VA entitlements (they call them "benefits" in error) because the CIA is sitting on the records and refuses to acknowledge their existence. Amazing. We need to find as many Invisible Troopers as possible ASAP to impress Congress that there are others out here waiting for ENTITLEMENTS. We need intervention to force the VA into granting entitlement not only to the Invisible Army, but to thousands of others. The VA built a huge bureaucracy of civilians who count of politicians to come and go so they can call entitlements "benefits" they can issue IF they decide to.

The heartache stories number into the hundreds of thousands that have been screwed over and over by the VA and ignorant politicians who send trillions of dollars across the world as "foreign aid" and to hell with Veterans, many of whom are homeless. This should not be.

It is a hell of a situation when you go fight for our country, come home and have to fight the United States Government for the promised lawful entitlements. The Invisible Army is not the only guys who are being screwed.

 You may contact THE RIGHT GUY about Invisible Veterans at 541-276-3532 in the United States, if it has not already been nuked out by Islam fascists. We have reason to believe this good man is filtering info to the right lawyers in Florida to battle the VA. Send him the ammo needed. Good luck.
